ABSTRACT

This CD-ROM is part of a multimedia software and video collection for high school and vocational schools. Applied Biology/Chemistry is one of many series providing resources for science education. There are six individual titles in this series which include: (1) Natural Resources; (2) Air and Other Gases; (3) Nutrition; (4) Continuity of Life; (5) Water; and (6) Human Health. This CD-ROM focuses on the water concepts and discusses the chemical structure of water, water flow in organisms, agriculture and industrial uses of it, and acids and bases. (ASK)
